

averaging lifts every arm and compresses the spread

- 1: random (fixed draw)
- 2: argmax, RGB DINO
- 3: Boltzmann T=0.04, exact
- 4: Boltzmann T=0.08, exact
- 5: uniform, exact
- 6: Boltzmann T=0.04, sampled
- 7: Boltzmann T=0.08, sampled
- 8: uniform, redrawn per visit
- 9: Boltzmann T=0.04, one draw kept
- 10: argmax, latent scorer
- 11: Boltzmann T=0.04 exact, latent scorer
- 12: argmax + projector reward, frozen
- 13: argmax + projector reward, refreshed
